

NFT The world!

An open source marketplace platform that can be used to sell and buy NFTs.

Our solution allows small, medium sized companies and enthusiasts to easily deploy their own NFT platform for non- or commercial purposes.

The screenshot displays the NFT The world! platform. The homepage features a map of the world with a purple and blue starry effect. The text "Welcome to NFT The world!" and "Breathtaking NFT shopping lounge. Own your virtual map area from Nuremberg and Riga!" is centered. A green "Sign Up" button is visible. Below the map, the "NFT Drops" section shows three recent drops: "Nürnberg" (by AMOS-NFT-Team, 0' 00:00:59, 0.001, 10/100), "Riga" (by AMOS-NFT-Team, 1' 01:23:45, 0.001, 73/100), and "Adorsians" (by Adorsys, Over!, 0.001, 67/1000). The "Announcements" section includes "New drops soon" (07.02.2022), "NFT world announces" (05.02.2022), and "Popular drops this week" (03.02.2022). The detailed NFT item page on the right shows a purple starry map area for "The piece of the world" with a price of 3.6 and a "Place order" button.
